

Personal Plan for Success Career Plan

Know yourself:

What do you want to accomplish in life? Professionally? Personally? How do they intersect?

Target Opportunities:

What strengths do I have? Weaknesses? How do they impact what I want to do? What makes me stand out compared to my peers?

Roadmap to success:

Establish goals (internships, projects, jobs) that will help you achieve success.

Development:

Where do I need to develop personally and professionally? What classes do I need to take, or work harder in? What else can I do to advance my skills?

Sell:

Develop a plan to build your 'personal brand'. Include a resume, LinkedIn account, and perhaps a personal portfolio or demo reel, and actions you will take once they are created.

Relationships:

Identify who has helped you get where you are, and people who can get you where you need to go. If you have not met the latter, include a plan to meet them.
